

- Exciting versatile design possibilities
- Sharpen sequential problem solving skills
- Develop strength, flexibility & coordination

## CLIMBING WALLS (Top Rope/Lead)

- Climb with aid of belayer or hydraulic autobelay
- Top rope and bolt in protection points
- Lead climb impressive walls with stunning features
- Maximum bolt on hold sites allow for continuous route setting
- Design possibilities are endless
- State of the art climbing systems
- Design manufactured & installed to: BS EN 12572-1:2007 (standard for artificial climbing structures)

King Kong Climbing Walls. Threlkeld Quarry, Threlkeld, Keswick, Cumbria, CA12 4TT
